Accelerating success.

Corporate clients want their properties to be well looked after, with facilities managed at optimal cost and maximised service utilisation. The Colliers Facilities Management approach is designed to meet these objectives with flexibility to suit each client's unique needs.

We work in partnership with our clients to gain a detailed understanding of their short and long-term business objectives. With these insights, we design a workplace strategy that not only meets their goals but fits seamlessly into their operations.

Our approach is anchored by a robust programme of financial planning, maintenance management, supported by technological solutions in managing on-going operations and reporting. We are committed to delivering best practices in Facilities Management through implementing standard operating procedures across multiple offices and geographical locations.

Each client's assignment is serviced by a dedicated team with a single point of accountability. As a global real estate services firm, Colliers International's reach extends to local and regional resources to promote success for clients.
