Accelerating success.

We are recognised as one of the leading providers of innovative retail services in Thailand.

Our close relationships with retailers, developers of central and suburban shopping centres enable us to identify and react to trends in the retail leasing and investment markets.

Our established network in the industry helps our clients to maximise their profit and advantage in the market. Our knowledgeable team provides professional advice on clients' requirements including market studies, property analysis, site acquisition process and disposal strategies for international and nationwide chains. Based on our day-to-day work and ongoing surveys conducted by our research team, we deliver accurate and up to date market information to clients.

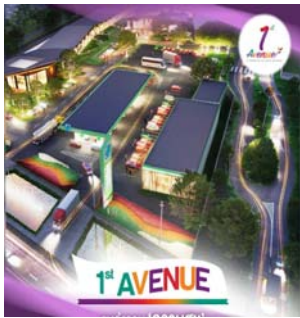

We offer developers a full range of solutions to ensure that the development does not only fulfil the requirements of our clientele but also maximises the benefits from investment. Our services include market studies, identifying the appropriate concept, market positioning, trade mix, marketing plan, leasing process and strategy. All stages are designed to meet the requirement of clients: developers, tenants and customers.
