CORPORATE SOLUTIONS

INTEGRATED & FACT BASED END USER SOLUTIONS

Facilitate and accelerate your business drivers is the key mission of Corporate Solutions. Our success arises from offering integrated end user solutions for the whole life cycle of your real estate, work environment and FM. Colliers International Corporate Solutions is market leader and trendsetter for end user solutions in the Netherlands. 100% independent, end user focused with local teams, working within the global network of Colliers International.

AKZO NOBEL

SUCCESS STORY

The FM organisation of the leading global company in paint and specialty chemicals AkzoNobel is organised on a decentral national and international scale. For the next step of professionalism it is necessary to get more insight in the facility services performance on location. Key goals of the project are to increase the quality of the services, reduce the number of facility contracts and realise 20% cost savings for the Netherlands, France, UK, Spain and Sweden.

STRATEGY

- > Providing insight in the facilities cost and service levels, based on the EN15221;
- > Development of business cases per location;
- > Outsourcing of the soft services for the head offices in Amsterdam and Arnhem;
- > Implementation of the uniform Akzo service level across with standardised FM processes;
- > Review and reorganise the FM organisation both on a central and decentral level.

RESULTS

- > Creating insight in saving potentials;
- > Harmonisation and standardisation of the desired service level;
- > From local and diverse service levels to a uniform / central AKZO FM policy;
- > New FM contracts across multiple locations;
- > Optimised and standardised facility processes and organisation.

DANONE RESEARCH

SUCCESS STORY

Danone Nederland B.V. is part of Groupe Danone, one of the global food industry players with strong brands like Danone, Evian and Nutricia. Danone needed representation of her interests throughout the development of a new International Innovation Centre located in Utrecht (NL) Science Park.

STRATEGY

Development PoR including building and workplace concept and sustainability ambitions. Selection process for project developer and interior designer. Commercial negotiation and guidance with the creation of the rental agreement. Consultancy and Project management during design and implementation phase. Organizing the facility management organisation and guidance in the procurement process of suppliers and furniture.

RESULTS

- > One stop shop for representation of Danone's interests during all phases of the project, from project definition to the move;
- > Realisation of a unique 20,000 m² innovation centre with an open and transparent;
- > Architecture and in support of Danone's ambitions;
- > Assurance of building- and workplace concept and meeting the quality criteria for the BREEAM 'Excellent' certificate;
- > New FM contracts across multiple locations.

SODEXO KLM

SUCCESS STORY

Colliers International in cooperation with Sodexo has established a partnership with KLM to develop and execute a strategic corporate real estate masterplan for the KLM portfolio of 600,000 m² offices, hangars, logistics and terminals. This real estate management strategy provides KLM the steering mechanism for their real estate portfolio on a short, mid and long term period.

STRATEGY

- > Centralisation of all corporate real estate information in a database;
- > Translation of business challenges into real estate scenarios for the KLM divisions;
- > Development of integral long term corporate real estate management strategy;
- > Development of a custom made real estate management dashboard for real time;
- > Insights in costs, budget, risks and feasibility alternatives;
- > Tactical involvement accommodation projects in order to secure the connection between short term project planning and long term strategy.

RESULTS

- > A corporate real estate database containing all data from the KLM portfolio;
- > An integral KLM corporate real estate strategy and corporate real estate management dashboard.
