DEFINITIONS

PRIME HIGH STREET RENT*: Top open market rent that could be expected for a unit of standard size within the market - typically 100 to 200 sq m. The figure does not include service charges and taxes, and does not reflect tenant incentives.

PRIME HIGH STREET YIELD: The yield an investor is prepared to pay for a prime retail asset, fully-let to high quality tenants at an open market rent in a prime high street location. Lease terms should be commensurate with the market. The yield quoted will reflect local market practice, which can differ by country.

PRIME SHOPPING CENTRE RENT*: Top open market rent that could be expected for an in-line unit of standard size within a prime centre. The figure does not include service charges and taxes, and does not reflect tenant incentives.

PRIME SHOPPING CENTRE YIELD: The yield an investor is prepared to pay for a prime shopping centre asset, fully-let to high quality tenants at open market rents. Lease terms should be commensurate with the market. The yield quoted will reflect local market practice, which can differ by country.

*Prime headline rents focus on the leading high street and shopping centre for each market. UK, France and Ireland: standardized high street and shopping centre rents, incorporating Zone A rents.
