DISCLAIMER This report gives information based primarily on Colliers International data, which may be helpful in anticipating trends in the property sector. However, no warranty is given as to the accuracy of, and no liability for negligence is accepted in relation to, the forecasts, figures or conclusions contained in this report and they must not be relied on for investment or any other purposes. The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020, has impacted market activity in many sectors, creating an unprecedented set of circumstances on which to base a judgement. This report does not constitute and must not be treated as investment or valuation advice or an offer to buy or sell property. Given the unknown future impact that COVID-19 might have on real estate market supply, demand and pricing variables, we recommend that you recognise that our research and analysis is far more prone to market uncertainty, despite our endeavours to maintain our robust and objective reporting.
