

Advisory & Restructuring

The Colliers Advisory & Restructuring team provides bespoke real estate advisory services to lenders, investors, business management teams and practitioners during restructuring, turnaround and insolvency situations.

We work closely with the wider Colliers platform and other professionals to facilitate an efficient and holistic approach to each project via a “virtual circle” of sector specialists.

This enables us to deliver a cross-section of real estate services and sectors with significant breadth, depth and agility.

By working alongside local sector experts, we quickly adapt to and evaluate a wide range of core and alternative property markets nationally, including:

Retail

Licensed & Leisure

Hotels

Healthcare

Automotive & Roadside

Offices

Industrial & Logistics

Residential

We integrate real estate valuation, strategy and disposal services to help key stakeholders assess value, identify opportunities, mitigate risk and release capital.

Delivering effective, practical solutions to complex situations
